Fundraising

ZeroWaste Switzerland needs funds to consolidate its activities and carry out major projects. More than ever, it is seeking financial support. Networking can be of great benefit to an association in fundraising, so please don't hesitate to connect us with your own network. Many thanks for you contributions:

Presentation of the survey results

A survey was conducted on the association and its activities on a sample of 760 people. The questions covered both the adoption of the Zero Waste lifestyle and the association and its functioning.

The results show that a large proportion of respondents (97%) have adopted the Zero Waste lifestyle for environmental reasons.

The ZeroWaste Switzerland's work was rated at 98% as more than satisfactory. Three adjectives emerge from the survey to describe the association: **inspiring**, **responsible** and **accessible**. Finally, many people raised the issue of plastic waste, a theme on which we are committed to further mobilizing our efforts.

The winners of the reBOX and VELEDES / ZeroWaste Switzerland bulk bags were drawn a random! Thank you all for your enthusiastic participation.

Collective members

In this section we introduce our new [collective members](#):

[Eco-tsapi](#) – The “Eco-hat”, the new generation of food wrapping material, is entirely home-made, and its material is an organic cotton fabric soaked in a coating made from Swiss beeswax and organic virgin jojoba oil. Beewax is compatible with being in contact with food and the cotton comes from certified organic farming. An ideal combination to satisfy the organic & local products and ecology lovers.

[MyGlass](#) – Online shop specialized in customised glass containers. You can put forward your own design (a logo or a motto), or use the designs already made to customise glasses, jugs, pots and jars. It's a great way to give an original touch to events, and also to guarantee a memorable souvenir.

[Kräuterstube](#) – The handmade Natural Soap products from the Kräuterstube offer mild care and smell wonderfully natural. All products are handmade, organically grown and most of the ingredients and herbs are collected from the Swiss nature.
