

We need your support [now](#) for 2020!

Dear interested in Zero Waste,

Are you also concerned about climate change? Would you like to help implement solutions? Then you can now support the work of ZeroWaste Switzerland through your [membership](#) or a [donation](#).

3 good reasons to support ZeroWaste Switzerland:

Reason no.

1

Zero Waste is a **demanding vision that proposes to consider the reduction of waste at the source** and to fight against the waste of resources. The support of members and donors guarantees the association's independence.

[Click here](#) to consult our annual reports.

Reason no.

2

The ZeroWaste Switzerland Association supports citizens in their **ecological transition by offering practical tools**.

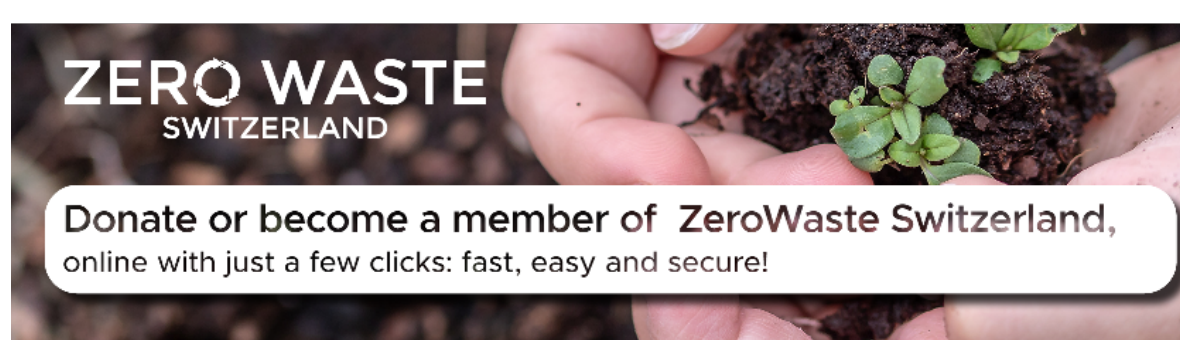

To see the Zero Waste guides, [click here](#).

Reason no.

3

ZeroWaste Switzerland proposes **concrete actions to develop the zero waste approach on a large scale**. More than **700 activities** have been organised in different regions since the foundation of the association in 2015, and large-scale projects are currently being developed.

Geneva

20th Jan. [Genève – Atelier Zéro Déchet « Nourriture et boissons »](#)

[More events in the online agenda](#)

Smells good!

And even after the Christmas season, it still tastes good!

Pamela, our administration coordinator, tells us the secret to a delicious [muffin recipe](#) – baked with baking soda, of course!

Why baking soda? Baking soda is available in bulk in many stores and is a great alternative to baking powder. It's even better if you can do **without the disposable packaging**. We wish you a lot of fun baking your own pastries and a "good tasting"!

The collective members

We would like to introduce our new members. Welcome!

savonnerie
NEPTUNE

The [NEPTUNE soap factory](#) offers organic handcrafted soaps in cold saponification for body, hand, face, hair and beard care, as well as soap flakes for cleaning and laundry. The range is completed by an oat and calendula bath mix and various accessories.

The [Gluecksbaby.ch](#) concept: in addition to their online shop with Zero Waste products for the whole family, Gluecksbaby has developed a cloth diaper that consists only of natural materials and is lovingly 100% made in Switzerland.

[Deli'Vrac.ch](#) offers home delivery of dry foodstuffs in bulk, drinks, delicacies as well as cleaning, hygiene and cosmetic eco-responsible products, in returnable containers in order to avoid single-use packaging.

Here you'll find the whole list of our collective members:
