ZERO WASTE SWITZERLAND

Dear readers,

You are maybe wondering how to get ready for Pancake Day and still enjoy this moment at this best, while being Zero Waste?

Well, it is traditional to use up all rich, sugary and fatty foods in the house by making and eating pancakes, and we know that these ingredients are usually all packaged in plastic and non recyclable contenants.

We think it's time to reclaim [pancake](#) day as a delicious celebration of frugality and zero food waste. Will you join us?

The corner of the good addresses 🏠

Winter is fast approaching and we must soon get out the jackets, scarves, gloves and hats. Second-hand shopping is also your partner during this period. You will also find the different BULK stores to buy the ingredients to prepare Christmas cookies for example.

All this can be found right here, the map of good addresses!
